Newly Added Markets Make Preferred the Second Largest Business Center Network

As we add new business center locations weekly, Preferred Office Network now has over [650 workspaces](#) for our clients to choose from. ***Second only to Regus, Preferred is the largest network of business centers in North America with more locations than even WeWork.***

For the last 8 years, Fortune 1000 companies across the country have trusted Preferred to guide them in not only the search for office space, but to work alongside real estate teams as a strategist to locate space that meets unique configuration needs, negotiate pricing, book tours, and help companies move in and out of markets quickly, saving time, money, and hassle. ***Our services come at no additional cost to you.***

We provide the most flexible terms in the industry and are the only office network that offers a No-Term lease agreement. Our one master agreement governs the entire network of business center locations saving you operational resources when there aren't lengthy agreements with different terms for every new market. Sign one agreement, and you're covered across the network. We also provide one monthly consolidated invoice whether you have three locations, or thirty. Pay one monthly amount for all your offices and you're done - no hidden fees or keeping up with multiple invoices.

[Contact us](#) today for your free workspace strategy call to learn more about the revolutionary benefits of being a Preferred client.
